

PERMISSION TO SHARE IMMUNIZATION INFORMATION

Utah Department of Health
Utah Immunization Program &
Utah Statewide Immunization Information
System

USIIS Information Exchange Authorization:

The State of Utah requires documentation of current immunizations for school entry unless parents request an exemption. The Utah Statewide Immunization Information System (USIIS) is a voluntary, confidential, computerized record of a child's immunization history, operated by the Utah Department of Health since 1995. The vaccine records of all children in Utah may currently be entered into USIIS by health care providers unless a parent requests the provider not to do so. Exchanging vaccine records with USIIS allows the schools to assist parents in documenting which vaccines children have received and which may still be needed.

Student Name: _____

Student Grade: _____ **School:** _____

School District: _____

Utah 53A-11-301 requires documentation of immunizations for school attendance. The Utah Department of Health maintains a voluntary, confidential record system to assist parents/guardians, health care providers, and schools in documenting your child's immunizations. This record system is called the Utah Statewide Immunization information System (USISS). Allowing your child's school to share your child's immunization history with USIIS will aid you, your child's health care provider, and the school to determine which immunizations your child has received and which may still be needed.

_____ I **give** my permission for the school to share my child's/legal dependent's immunization information with USIIS.

_____ I **do NOT give** my permission for the school to share my child's/legal dependent's immunization information with USIIS.
