

THE FOLLOWING EXPLAINS THE DROP OFF/PICK UP PROCEDURE. SEE MAP FOR REFERENCE.

All vehicles must approach Promontory from 1200 West. It is disruptive and dangerous to all traffic to turn left into Promontory. The **CARPOOL LANE** will pull as far to the right on 2700 South to allow the other traffic to pass while waiting to enter the driveway. WITHOUT BLOCKING the crosswalk, the **CARPOOL LANE** will turn into the 1st driveway lane and travel around the edge of the West Parking lot.

The **CARPOOL LANE** will turn into the parking lot using the 1st driveway lane and then travel around the edge of the West Parking lot. After being directed past the parking lot crosswalk, the **CARPOOL LANE** curves around, along the sidewalk of the **West Doors** of the school, then curves around to the front of the school, into the **North Door** area.

WHEN USING THE PARK & WAIT OPTION: Pull into the parking lot using the 3rd driveway lane. Drivers must park in an actual parking space. Waiting in the driving lane clogs the lot and poses danger to our students. If you arrive early enough and it is safe to do so, please back into a parking stall to ensure a safer exit while students are around. When leaving, please carefully merge with the **CARPOOL EXIT LANES** to exit the parking lot.

★ Yield to pedestrians at the crosswalks. **DO NOT STOP ON CROSSWALKS.** At the direction of the crossing guard, drivers will pull forward through the **CARPOOL LANE** as far as possible.

★ There is **NO WAITING** in the carpool lane. Continue to pull forward as the line moves forward. **Use all available space.** Children can walk to your vehicle. Students may be picked up along the sidewalk, on the passenger side of the vehicle only. This is for the safety of our students. Please park to pick up your child if you know you will need to exit your vehicle to help them

IF CHILDREN ARE PICKED UP ON THE WEST SIDE: After loading/unloading students, pull away from the curbside and merge into the **YELLOW EXIT LANE**. Carefully cross into the 3rd traffic lane in front of the school and continue east, stopping as needed at the crosswalk and carefully merging with the other lanes, yielding to the **PURPLE PATH**, to exit the parking lot.

IF CHILDREN ARE PICKED UP ON THE NORTH SIDE: After loading/unloading students, carefully pull away from the curbside and merge into the **BLUE EXIT LANE (center)**, stopping as needed at the crosswalk and carefully merging with the other lanes, yielding to the **PURPLE PATH**, to exit the parking lot.
